Colonel
T. Leary

This is the story of Colonel Timothy Leary, once a typical Westhill senior, class of '68. (He sold candy, earned brownie points, sang at hootenannies, paid dues, guided corridors, read the WESTHILL WORLD, and went to drive-ins, sit-ins, park-ins, Velasko-Inns, and love-ins).

One fateful day, his student ID number (283849604938584930293820O) was reshuffled in the IBM machine, and mistaken for his PSAT scores.

Immediately, Mrs. Reynolds spotted him as outstanding astronaut material. It wasn't long before he found himself at Cape Courtyard, the Westhill launch site.

As we meet him he is in the midst of the final briefing session before blast-off. Let us now join him at the launch site of Warrior IV, the fourth in a series of launches from Westhill. (Previous launches have lifted off the pad in '65, '66, and '67).

But helping Tim along his path have been a group of men and women of . . .

Mrs. Marian Reynolds

. . . Dedication

Our flight engineer and program counsellor has for the past six years, had to cope with many challenges created and perpetrated by us.

She has been an understanding if sometimes harried listener and director of our futures, both immediate and beyond – understanding of our sometimes astronomical aspirations, and harried by our demands.

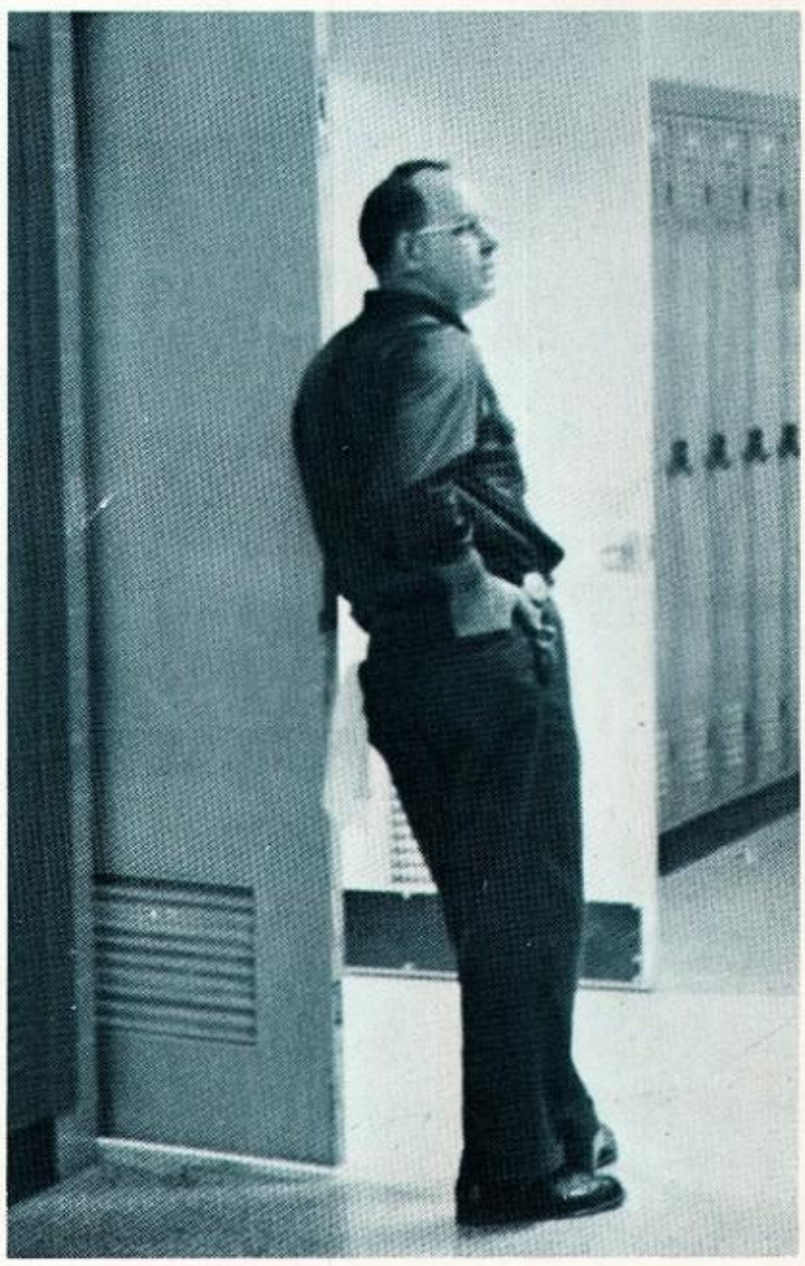
We, the class of '68 and the staff of WARRIOR '68, dedicate this missal to a dedicated person for service to us as 'trainees' at Westhill and as astronauts being launched into our careers.

Fondly and gratefully we thank you, Mrs. Reynolds, for favors and services past, present, and future.

Mr. Bernie Parsons, Mr. Dominic Arcadi, Mrs. Shrank, Mr. Gustav Lukens.

The ground crew of our launch program is a group of dedicated and willing workers who rarely—if ever—et credit for all they do. As a sign of our appreciation for hours they spend undoing much that we have one in moments of forgetfulness, we also dedicate WARRIOR '68 to this group—the men who do the round work.

For a job well done—and for doing it with no fanfares save the knowledge of having done it—we thank the ustodians of our school.



But Tim wasn't in this alone. He had at his disposal a faithful ground crew.

The final stage before reaching orbit is, of course, your Senior year. The Senior year is particularly important because it represents your final effort and because the seniors, working together, form what is known as the ascension fuel compartment of any capsule.

Cornelia Skinner and Emily Kimbrough, n the summer of 1923, boarded ship for heir first ocean voyage and their first stay n Paris. It was the beginning of a hilarious dventure for the girls, as well as a chance o prove to their parents that they were emancipated'!

The entire voyage is doomed by Emily, and shadowed by her constant fear of sink- ng, and her misadventures as she firmly believes she has killed the 'man overboard' with a deck chair. But the final catastrophe occurs on the day they are to dock. Cor- nelia is stricken by the measles and Emily, aided by Dick Winters and Leo McEvoy, resort to sumggling her past the health in- spector.

Once in Paris it is Cornelia's ambition to take acting lessons from Monsieur de la Croix, the famous French actor. All her plans to be cosmopolitan in Paris go away when she discovers she's been bitten by bed-bugs, and her despair is deepened by de la Choix's announcement to her that she has no talent for acting.

The curtain closes on the final realiza- tions that Cornelia does have the talent for acting; it has been a wonderful summer; and the girls have become 'emancipated.'

Our class of 1968 has proven its enthusiasm, leadership, athletic, and scholastic abilities throughout our six years at Westhill, both as a group and as individuals.

The Junior High years marked the beginning of our unity as a class. In ninth grade we at last became a part of the Senior High, able to attend dances with upperclassmen.

Sophomore year brought work on a Snow Carnival—perhaps the first of its kind to be cancelled because of too much snow. As Juniors, we comprised a larger part of our varsity teams than the Seniors and we were also well represented at the Jr-Sr Cream War. "Cherish", our prom, proved to be a great success.

Mr. Dadey gave us the initial push into our Senior year and Miss Bauer worked continuously with us as the class picked up momentum. Again our athletes were a majority of the great varsity teams. We led in Student Council and various other activities in school and out of school. We strived to make our picnic, ball and banquet more original than any previously. Senior privileges were extended and our senior lounge became a reality.

It seems such a short time ago that we stood as seventh graders, envying the freedoms and privileges of Seniors. This year we have tried to use these freedoms and privileges to build a spirit and leadership never before equalled at Westhill. As we leave now, we can only hope that we have left something to live up to.

The purpose of the AFS committee is to circulate our Foreign exchange student by means of parties and other social activities. This year's activities have included a Halloween party, a Progressive Dinner, a picnic, and other such events. Our AFS Committee also sponsored a Christmas Card sale and AFS Day, on which other exchange students in the area visited Westhill.

Hope you like our efforts!

We spent 50 million hours and $$$ on pictures because they ARE the school. They're us here at Westhill. The color isn't all colors, but it's a start that we hope the next Yearbook gang will continue.

Finally to our editors and assistants: Tom Blanchi, Neil Killmore, Barb Guth, Joan Taylor, Elaine Kalode, Rick Gove, and Linda Manion—they all helped our book become the reality it now is. Thank you to everyone who, in any manner, helped in the creation of our Westhill Warrior.

Thanks always go out on the Editors' page. Our thanks go first to Varden's for their pictures, and to Mr. R. J. Groenendeal from ICP for all his help—technicalities which common students never see! Also to you 600+ customers who now read this page. To our faculty for helping us skip classes legally, run out to buy more film, etc., and for their "financial aid"—more dedication this community has not seen.

And Mr. Wells . . . too, too many thanks for all the help, the ideas, the infinite time. What can we say that will be grateful enough? . . . All the nights of staying at school until 11 . . . living on cigarettes and Coke . . . driving us home at all hours . . . drawing pictures, cropping "pix", fighting with the Scaleograph . . . arguing with us three stubborn kids . . . May you have much luck and God bless you.

Special thanks go to one somebody who is not really a member of the staff, but who put most of the book together. Gail Enders. She put in more hours,than we could tally. Together we earned enough points to put the whole Senior class in "Senior Standing"! Great heaps of thanks go to her for all her time, never-ending energy, and especially work. We're proud to have her as our '68 "Warrior".

For those who are staying at Westhill have fun, learn—grow in body and mind—for that is what school is for. Time will pass quickly. When you're older you'll wonder where it all went.

For those who graduate, take this book and while leafing thru the pages, remember what it was to study, to hang out with the gang, to go to games, to work and be tired, to laugh and have fun . . . to be young.

From us to you.
Our book. Your book.

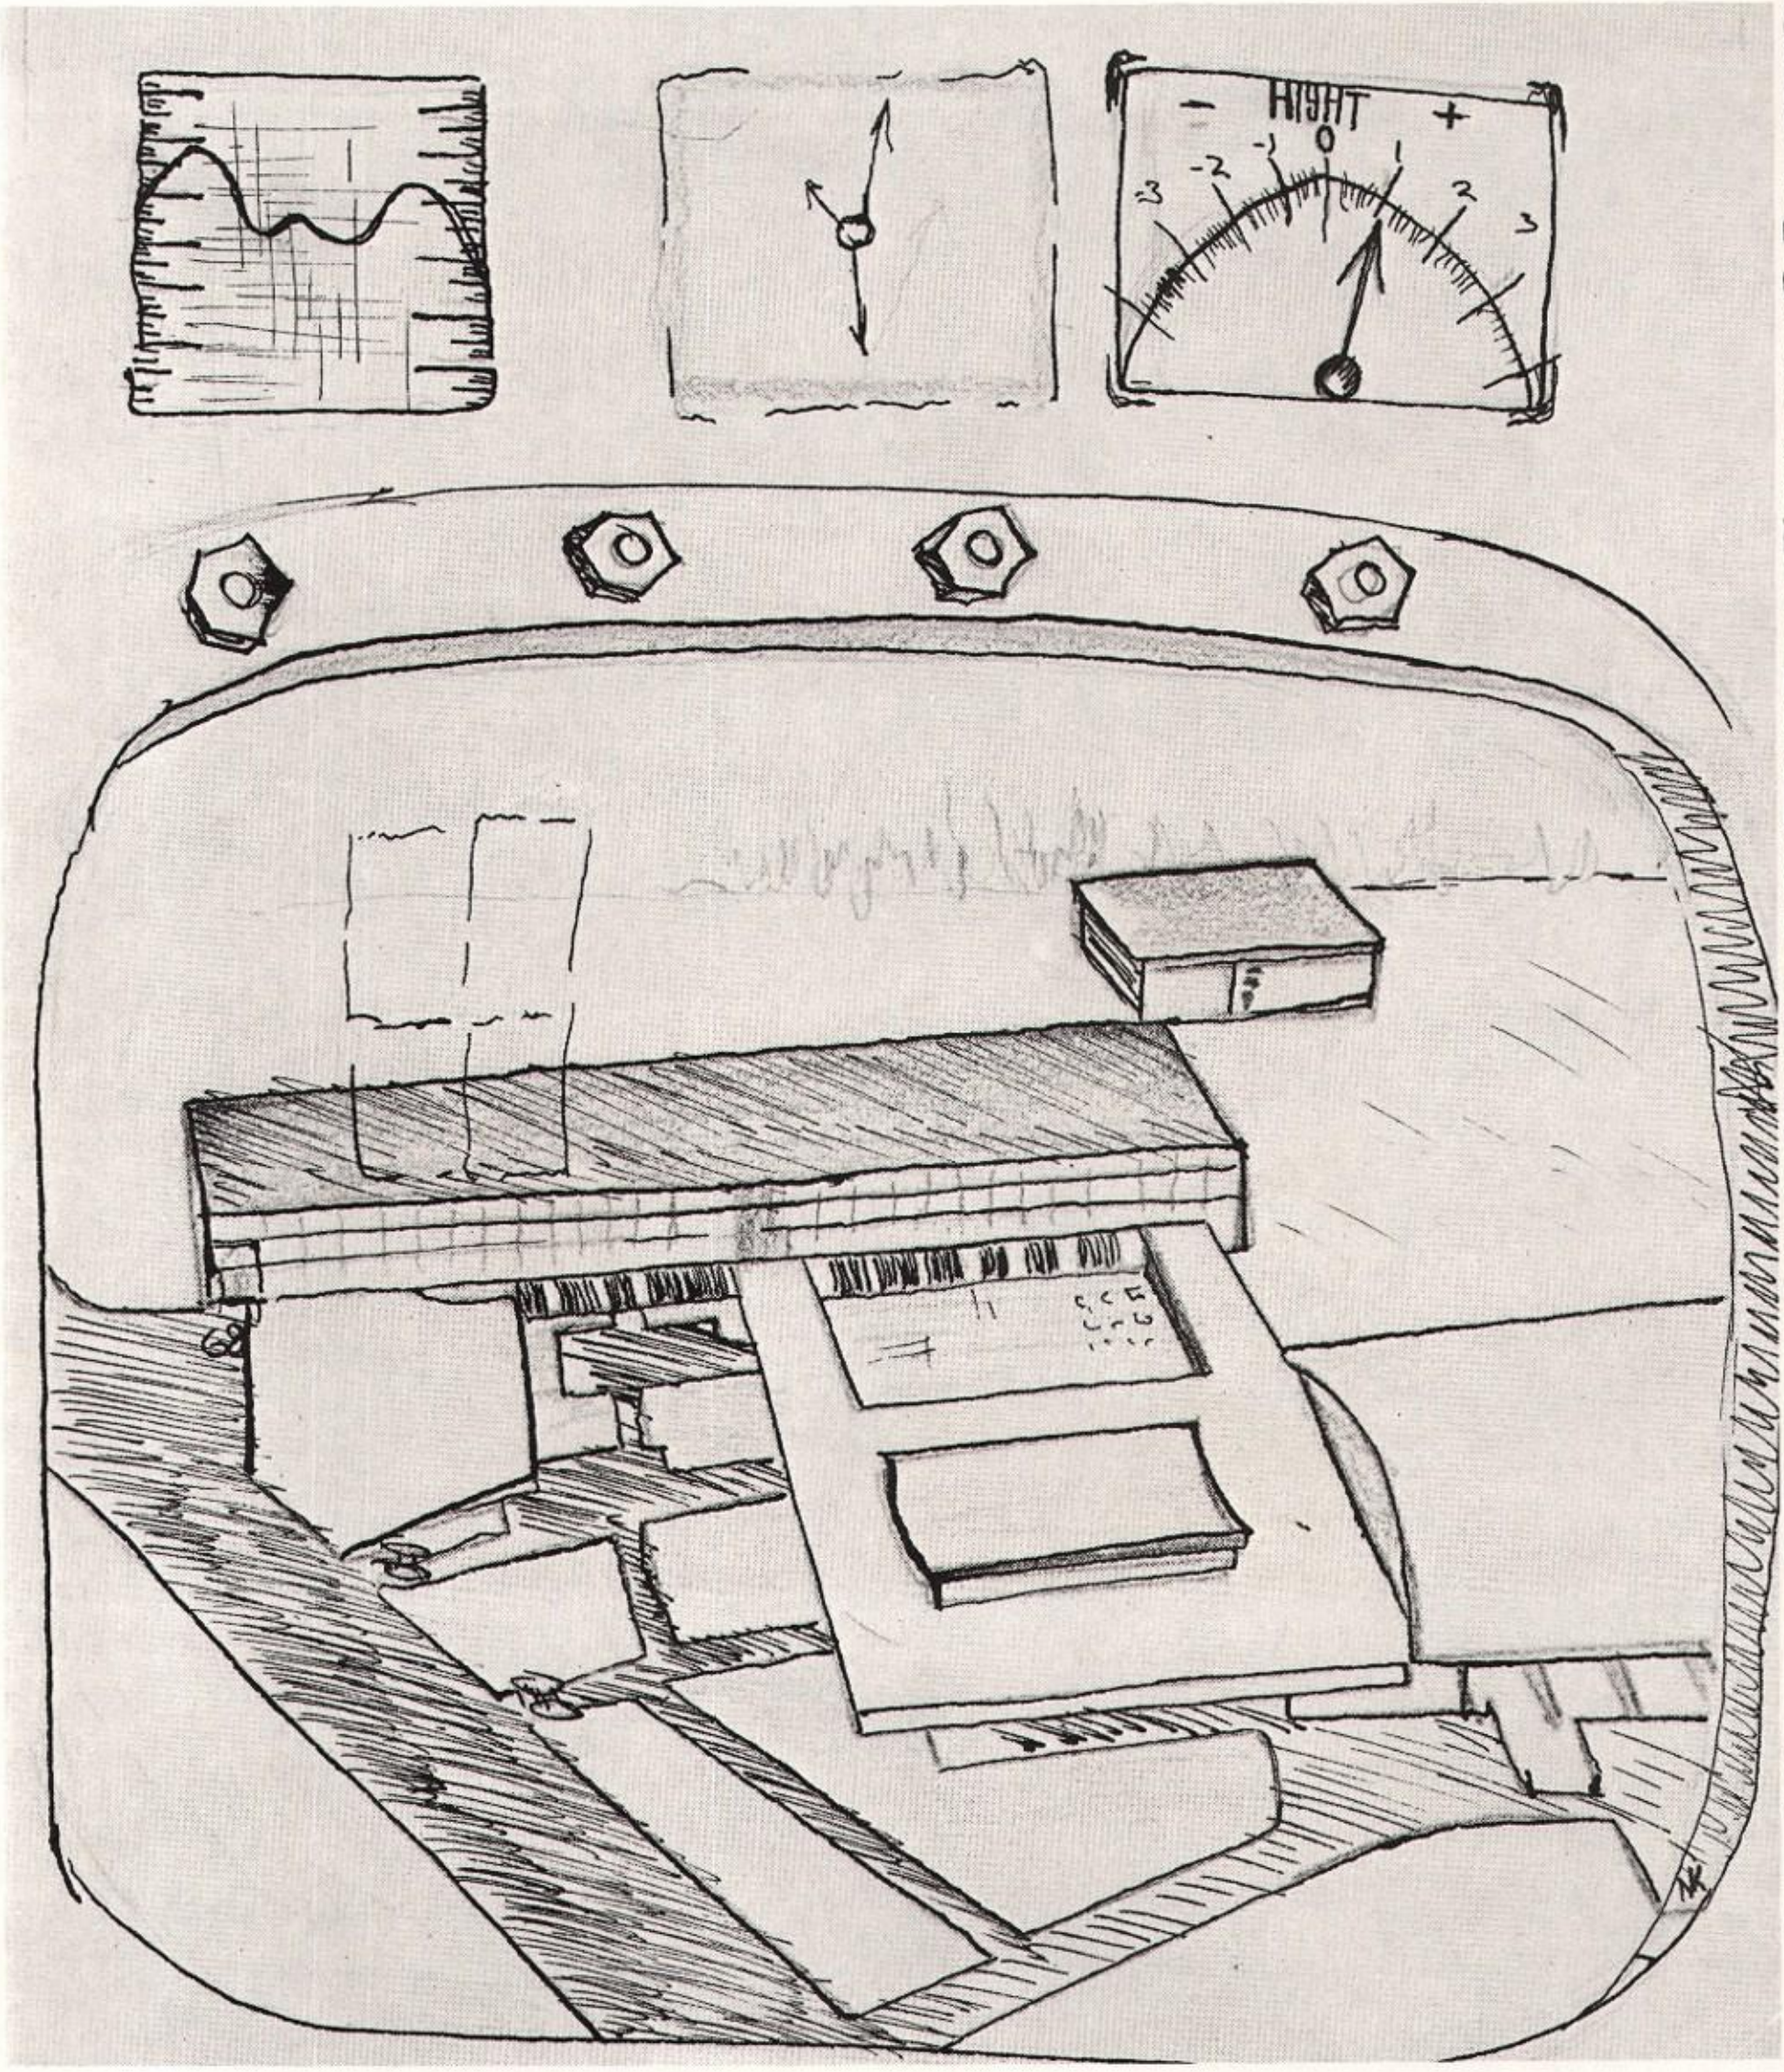
Take life and live it.
. . . And love . . .



The final portion of your flight will, of course, be your free flight orbit. This will take place after the solemn series of exercises known as commencement. It is the stage in which all ground control is removed. You will then be on your own to pilot your capsule to the heights——or the depths——of life.
